

All times in the programme of “sharing visions” are named by UTC (universal time coordinated).

That means that most of us have to adapt the programme-times in their local times, cause we’re living all over the world in different time zones.

Here you can see, how many hours you have to add to convert UTC in your local time.

You may also use a digital time converter like <https://www.timeanddate.com/>

+ 0	+ 2	+ 3	+ 8	+ 10
UTC	Germany	Tanzania	Malaysia	Papua New Guinea

That means:

7.00 am	9.00 am	10.00 am	3.00 pm	5.00 pm
UTC	Germany	Tanzania	Malaysia	Papua New Guinea
